

Second Cities, a 5 Piece Alternative/Emo band from Birmingham UK. The band's members consist of: Jamie - Vocals, Tony & 'Watto' - Guitar, Damon - Bass, Josh - Drums. A Band for the abandoned, music for the outcasts. Second Cities fuse heart on sleeve emo lyrics (that our mom's wouldn't understand), with melodic modern-metal stylings. The 'Brummy' band are gaining notoriety locally and nationally with great speed.

Having released their EP during the second UK lockdown, they show no signs of slowing down. Cities have filled-in and supported U.S touring acts such as 'HUNDREDTH' and 'Chaotic Resemblance' during their UK tours.

Download Blur in Time

'Blur In Time' is a softer yet poignant track from the band, reflecting how depression and internal conflict can eat away at the time we spend with those we care about. With fruitful yet clean lyricism that depicts 'rigorous torment' and 'hollowness', the 3 minute track would fit great alongside artists such as:

Trash Boat, Neck Deep, Sum 41 and My Chemical Romance. Recorded at Steel City Studios with Kerrang! winning producers: Phil, Callum & J at the legendary 'Steel City Studios' (home of records & K! Awards from All Time Low, A Day To Remember, You Me At Six & Bring Me The Horizon + more).

Our vision for this track is to bridge lighter and heavier music for an audience who feel like the outcasts to build a community of misfits.

Discography

Debut: BROKEN LUNG

In 2019, Second Cities dropped their debute 'Broken Lung' on all streaming platforms, along with a fan made animated lyric video which would leave people eagerly waiting for more music.

2021: EP

They released their EP 'Out With The Old', which consisted of 3 follow up singles ('Oceans', 'Love & War' and 'Like A Moth') - which were a critical success; and 2 previously unheard tracks ('Faith' and 'Say Goodbye'): Ocean's and Say Goodbye both had their own 'Lockdown Music Videos'. All their tracks are unique and distinct, while still retaining an overall cohesive sound.

"'Out with the Old' progressively gets heavier as it unfolds with the latter half featuring an abundance of riffs and solos, perfectly mirroring how the band have evolved their sound since their formation" - Chris Ward

"3 minute duration sees riffs that crush and soothe over the clean and throaty angst delivered vocals" - Planet Mosh (2020)

"Second Cities are an impressive band, One of those highlights of the scene, certainly one that more people should know about" - Gbhbl
